2nd September 2023

To Whom It May Concern,

I am writing this letter to recommend Phoon Thet Pine for admission to a university program in the field of Computer Science and Software Engineering. Thet has been a valuable member of our team at the Algorithmics International School of Programming (Marine Parade – Bedok), where he has been involved in teaching Python and digital literacy courses to students aged 7-17.

Since joining us on March 26, 2023, Thet has consistently demonstrated dedication, expertise, and enthusiasm in his role as a tutor. He has successfully conducted three classes, showcasing his passion for Python programming and digital literacy. One of Thet's remarkable qualities is his ability to ignite the spark of curiosity and creativity in his young students. This unique approach has had a profound impact on the motivation and enthusiasm of his students, fostering a genuine interest in learning Python.

In his Python programming courses, Thet covers essential topics, including variables, loops, and data structures, while also emphasizing problem-solving and critical thinking skills. Additionally, in his digital literacy courses, he equips students with the necessary knowledge and skills to navigate the digital world responsibly.

Thet's dedication, passion, and teaching abilities make him an excellent candidate for any computer science or software engineering program. His experience and commitment to education, coupled with his comprehensive knowledge of Python and digital literacy, will undoubtedly contribute to his success in higher education.

I wholeheartedly endorse Thet for admission to a computer science or software engineering program, confident that he will excel in his chosen field. For any inquiries or further information, please feel free to contact me at +65 8043 3730.

Sincerely,

Muhammad Ridhwan
